6.6 – Creativity (Font and Style)

Creativity in Tableau dashboards refers to the effective use of fonts, colors, layout, and visual elements to make the dashboard attractive, readable, and professional while presenting insights from the Food Ordering Behaviour and Consumer Trends: A Structured Analysis of Orders and Habits dataset.

Main Points

Font Selection:

Use simple and professional fonts (e.g., Calibri, Arial, Segoe UI).

Maintain a consistent font style throughout the dashboard.

Use larger font sizes for dashboard titles and smaller sizes for labels and legends.

Highlight important metrics using bold text.

Color Scheme:

Use a limited and consistent color palette.

Use green to represent healthy food choices or positive customer ratings.

Use orange/red to represent high spending, delayed deliveries, or frequent fast-food orders.

Use blue for customer demographics and order trends.

Avoid overly bright or distracting colors.

Layout & Alignment:

Maintain proper spacing between charts and filters.

Align visualizations neatly for a clean and professional appearance.

FOOD_ORDERING_BEHAVIOUR AND CONSUMERED TRENDS: A STRUCTURED ANALYSIS OF ORDERS AND HABITS

Use Tableau containers to organize dashboard components.

Keep related charts together for better readability.

Highlighting & Emphasis:

Use bold text for important insights.

Highlight key KPIs such as:

Total Orders

Average Order Value

Total Revenue

Average Customer Rating

Average Delivery Time

Most Preferred Cuisine

Use data labels only where necessary to avoid clutter.

Consistency:

Use consistent colors for the same categories across all charts.

Maintain uniform chart titles, legends, and axis labels.

Apply the same formatting throughout the dashboard.

Ensure all visualizations follow a consistent design theme.
